

## CONSUMER ADVISORY: CRISIS PREGNANCY CENTERS

Multilingual advisory issued on July 6, 2022 from the Office of Attorney General Maura Healey:

*“We want all pregnant people seeking help to know that CPCs do not provide abortion care, and the information presented to you at these facilities about your options is often misleading and inaccurate. To help friends, family, neighbors, and others in your community recognize the warning signs of CPCs, the guidance can be downloaded in multiple languages.”*
